SAFETY EQUIPMENT

FIRE EXTINGUISHERS	Yes
LIFE RAFT	Yes
EPIRB	Yes

OTHER EQUIPMENT

ADDITIONAL EQUIPMENT	Underwater Paint
COMPUTER	Board

REMARKS

The Cranchi E52S is a 52-foot (approx. 15.8-meter) luxury motor yacht designed by Christian Grande, representing a "sportbridge" concept that combines the sleek, low-profile lines of a coupe with the added leisure space of an upper helm deck. It is part of Cranchi's line, emphasizing Italian craftsmanship, high-tech construction (using carbon, aramid, and fiberglass fibers), and modern performance.

Features a galley-aft layout that connects seamlessly to the cockpit via a sliding door and lifting window, enhancing the sense of space.

Typically configured with three cabins below deck: a full-beam master cabin, a VIP cabin in the bow, and a third guest cabin with twin beds, accommodating up to six guests.

The main deck is bright, modern, and welcoming, with a spacious saloon designed for both comfort and practicality. The interior includes a U-shaped sofa with folding dining table convertible into a double bed, an additional two-seater sofa, and an electrically operated roof that enhances light and ventilation throughout the living area. The aft galley arrangement, together with the opening connection to the cockpit, creates a very pleasant and sociable onboard atmosphere.

The galley is well equipped with a 4-zone ceramic hob, oven, fridge/freezer, stainless-steel sink, generous storage, and even a washing machine, making the yacht particularly suitable for longer stays on board.

The accommodation layout is both comfortable and versatile. The full-beam owner’s stateroom amidships offers excellent volume, storage, a make-up table with mirror, and en suite facilities. Forward, the VIP cabin features a large double bed, ample storage, and en suite access. The starboard guest cabin is arranged with two single beds electrically convertible into a double bed, allowing flexibility depending on guest requirements. There is also a separate crew cabin with single berth and en suite facilities.

Outdoor spaces are very well arranged for relaxation and day use. The aft cockpit includes cockpit cushions, aft sunbathing cushions, a teak dining table, and seating area, creating an inviting setup for al fresco living. The yacht is also fitted with an electro-hydraulic transom platform, hydraulic gangway, underwater lights, bathing ladder, cockpit shower, and electric winches, all of which add practicality and comfort.

Forward, the foredeck offers additional sunbathing and seating cushions, while the upper exterior helm area includes a navigation station, sunbathing cushions, and a white Bimini top.

The yacht has 700 engine hours and has always been privately used only. She has recently undergone her annual service with Volvo Penta Service, while a full generator service by Kohler has also been completed, offering added confidence to her next owner. She was last dry-docked last year and is currently in dry dock once again for her annual hull maintenance.

Key Features:
- High-Performance Propulsion
- Innovative Main Deck Layout
- Hydraulic Platform
- Low engine hours
- Very good condition
