ANCHOR	Polished stainless steel
CHAIN	Polished stainless steel

REMARKS

The Novamarine Black Shiver 140 is a high-performance luxury tender that combines speed, comfort, and versatility. Measuring 13.85 meters (45.4 feet) in length, it can accommodate up to 25 guests, making it perfect for both superyacht support and standalone adventures

The BS 140 is the first model in the EGO line, available in outboard and In-outboard versions. With an aggressive design, it stands out for its extreme attention to detail and the use of selected materials, offering large spaces for leisure and relaxation. The walk-around layout maximizes the use of deck spaces, making it perfect for daytime activities. The stern hosts a large sundeck, seamlessly connected to a dinette serving as a lounge, connected with the sea and sky thanks to the water view and the transparent roof. Side accesses and a large stern platform with a swim ladder facilitate entry into the water.

The bow can be transformed into a dinette, sundeck, or dining area with a multifunctional table. Bow and stern awnings cover the entire deck surface. The use of space allows for a cabin with a spacious interior, including a dinette that converts into a double bed and a spacious bathroom.

The Black Shiver 140 is a perfect blend of performance, luxury, and practicality for those seeking an exceptional experience on the water.

Key Features:
- Large Sundeck
- Spacious Interior
- Numerous navigation instruments
